31st March and 1st April

FLAGSHIP EVENTS

1. Summit

Summit is a student parliament where participants present their ideas and views on a specific topic to the judges and audience present.

Preliminary round: Problem statement will be mailed to the participants before the event. Participants need to present the solution in the form of presentation to the judges, where in participants will be shortlisted for next round.

Panel discussion: Panelists from different backgrounds will discuss about the theme and related topics. A moderator will be present to convey questions from audience to the panelists.

Round 1: The problem statement will be provided prior to the competition for which the participants need to submit the solution in the form of a presentation.

Round 2: The problem statement will be provided on spot by the judges and participants have to present their ideas with or without a presentation.

Ticket price : ₹ 50 per person

Cash prize : upto ₹ 6,000

Team size : 2-3

Date : 31st March, 2023

Mode : Online

3. Civicture

Civicture is a flagship event conducted during IMPETUS. It is a two rounds event, where participants will deal with real life problem.

Round 1: Participants will be given a map of certain location, they are supposed to form a pipe line structure from Water Reservoir to OHT (Over Head Tank). Participants are free to choose their path for connection.

Best routes will be selected and qualified for second round.

Round 2: Based on the round 1 input, the participants are required to give the exact specification and requirements of the pipeline needed for that connections they made on the map. Until they are qualified they won't be knowing that the path they need to give the dimensions and specifications are same as that of the route they planned in first round.

Ticket price : ₹ 50 per person

Cash prize : upto ₹ 6,000

4. Codestorm

Codestorm is a competitive programming event where your coding skills will be tested by providing problems which requires you to apply brainstorming logic and ideas to solve the problems.

Round 1: The 1st round consists of 5 questions and will be conducted on the HackerRank platform. This round will test your knowledge, skills in problem solving and will make you think out of the box.

Round 2: This round consists of a fun and simple optimisation problem where the points are allotted based on the degree of optimisation. It is generally a min-max type of problem where you need to maximize the answer.

Ticket price : ₹ 50 per person

Cash prize : upto ₹ 6,000

Team size : 1-3

Date : 31st March, 2023

Mode : Offline

5. Hack-A-Maze

Hack-A-Maze is a Flagship event where bots made by participants compete with each other by solving mazes. And the quickest bot to solve the maze is considered the winner.

Round 1: Every participating team should come up with their bots. Working of the bot is checked by passing it through a simple maze. 10 minutes are given for each bot. Completion of the round and time taken are considered. Top 5 teams are selected for the next round.

Round 2: The bots should go through a complex maze. 20 minutes are given to solve the maze. The bot which took the minimum time will be considered as the winner.

Ticket price : ₹ 50 per person

Cash prize : upto ₹ 6,000

Team size : 1-3

Date : 31st March, 2023

Mode : Offline

6. Mechronins

An Innovative mechanical based event consisting of fun yet informative rounds.

Round 1: Round 1 is split up into two parts.

Part 1 - Jigsaw: It's an online puzzle where images are randomly arranged and participants have to solve the puzzle to move to the next part.

Part 2 - Make it or Break it : A needle and a workpiece will be given and participants have to carve out their models.

Round 2 - Machine Run : First hint will be provided. Tracks of fun filled clues will be presented. Each team should solve one clue to move to another.

Round 3 - This or That : Qualified teams will be given with 2 sets of problem statements. Participants should come up with innovative solution and present it.

Note : Participants should choose any one problem statement and present it.

Ticket price : ₹ 50 per person

Cash prize : upto ₹ 6,000

Team size : 3-4

Date : 31st March, 2023

Mode : Offline

7. Silic-0-Hack

A virtual hardware hackathon that uses simulation software and requires you to use an original strategy to solve a real-world problem statement within a set amount of time.

Round 1: For a given problem statement, participants must develop a practical simulation model. The participants must develop workable electronic solutions to the problem statement, which is founded on a real-world application. The submissions will be evaluated and the best teams will be selected for the next round.

Round 2: Competent teams must explain their answer to the judges and defend their strategy.

Ticket price : ₹ 50 per person

Cash prize : upto ₹ 6,000

Team size : 1-4

Date : 31st March, 2023

Mode : Hybrid

GENERAL EVENTS

1. Aranyani

At its heart, ARANYANI is a celebration of the beauty and power of nature, and a call to action to protect and preserve our planet for generations to come. With a blend of innovation and logic, this event is poised to tackle and give challenges and is awaited to receive creative ideas.

From towering treehouses to intricate bamboo structures, Aranyani is a testament to the power of human imagination and the limitless possibilities of construction.

Round 1 : Participants will be provided an article on sustainable building and given certain set of questions based on the article.

Round 2 : The qualified participants are to construct a structure from scratch for the given theme using the provided materials with zero wastage.

Ticket price : ₹ 30 per person

Cash prize : upto ₹ 4,000

Team size : 1-3

Date : 31st March, 2023

Mode : Offline

2. AR Wizards – “The Magic of Virtuality”

Participants will be challenged to showcase their coding and problem-solving skills through an augmented reality challenge in this **one-round** event.

The goal is to track specific images and objects using AR technology that will reveal a 3D model with a unique number. This unique number will serve as a file password, which, when entered correctly, will give participants access to a file containing broken code in both C++ and Java programming languages.

Participants will work together in teams to combine the code and fix the errors to create a functional program. The program will then be tested on given inputs.

Note : At least one person in each team should have a device compatible with "Google Play Services for AR".

Ticket price : ₹ 30 per person

Cash prize : upto ₹ 4,000

Team size : 2-4

Date : 31st March, 2023

Mode : Offline

3. de!Bug Fever

de!Bug Fever is structured to make existing circuits more efficient by debugging and finding errors, and coming up with solutions to address issues in circuits. The event consists of two rounds.

Round 1 - Problem Solving : It will require contestants to modify a circuit by making necessary changes and describing its functionality. With riddles to guide them, participants will have to decode the solutions. Teams that make the cut, move on to the next round.

Round 2 - Circuit Debugging : It includes two questions that will require participants to debug errors in a circuit and rig up a new circuit to get the desired output using the given simulator.

Ticket price : ₹ 30 per person

Cash prize : upto ₹ 4,000

Team size : 1-3

Date : 31st March, 2023

5. Escape the Crash

Escape the Crash is a fun event, designed to test the problem solving and critical thinking skills of the participants. Along the way, it promises to give the participants a brand new perspective on the concept of sustainability.

Round 1 - The Enigma Chamber(Online escape room) : In this round, the participants will be trapped in a virtual room. They will have to solve the riddles to escape the room. The riddles will be based on the theme of IMPETUS 23.0. On their way out, they will have to watch out for traps which can send them back. In this round, only the sharpest minds can escape into round 2.

Mode : Online **Duration** : 1 hour 30 minutes

Round 2: Green Crash – In this round, the participants will be given a "Do or die" situation. They will have to come up with the best reasons for them to be saved. The problem will be complex in nature with many elements. The participants will have to see all these elements, their interactions and come up with a solution that works.

Mode : Offline **Duration** : 1 hour 30 minutes **Venue** : Main Stage

8. FireQuest

Qualify and Show us the efficient queries that you can make, based on the given problem statement.

The problem statement given to the participants will be related to IMPETUS 23.0 theme GREENSHIFT - Harnessing Sustainability, Fostering Initiatives.

Round 1 - Scrape-it-up : Participants will have to scrape the given website to find the questions and then submit the solutions. The questions will be related to the events conducted by Google Developer Students Clubs. The solutions have to be submitted in a Google form.

Round 2 - Code-with-fire : The qualified participants will be given a problem statement related to the theme. They will have to build up queries to retrieve the data using Firebase and present the required solution which can be in the form of raw data or integrated with the front end (this will earn you extra points). There are no restrictions on the technology you use for front-end development. Submit the solution through a g-form. Note that the problem statement will be released on spot during the second round of this event.

Round 3 - Presentation : Participants have to present their solution and the working of the queries that they have implemented using firebase. They can also present the front end if it is completed and functional. The winners of this event will be decided accordingly.
